FOREWORD

A LISTING OF LANDS CONTROLLED BY THE MONTANA FISH AND GAME COMMISSION

This listing represents a current record of the lands controlled by the Montana Fish and Game Commission under patent, deed, lease, easement, agreement, or withdrawal. Acquisition of land by the commission is controlled by budgetary limitations set by the Montana State Legislature.

GAME MANAGEMENT AREAS usually serve several purposes. Winter ranges for elk and waterfowl production areas are the predominant purposes of these areas. Other species of big game, as well as upland game birds and furbearers, are also considered in the management plans for these areas. Opportunities for public hunting and fishing exist at many of these locations as well as viewing and photographing game and nongame wildlife species.

FISHING ACCESS AREAS are located along lakes, streams, and rivers and assure permanent public access to prime fishing waters. Many of these areas are developed for appropriate outdoor recreational use and provide relief from heavy public use on private lands. Many of these areas also serve as habitat for various small game species.

STATE PARKS, MONUMENTS, AND RECREATION AREAS are comprised of areas with scenic, scientific, historical, archeological or recreational significance. These areas represent outstanding examples of the state's natural and cultural resources. The lands and appurtenant facilities are managed to provide maximum recreational opportunities to Montana's residents and visitors.

NATURAL AREAS are those where particular interest is dependent on retaining their original state. Development of these unique areas is minimal in order to preserve their natural condition.

The other areas, including FISH HATCHERIES, ADMINISTRATIVE SITES and BIRD FARMS are small in size and specialized in the services which they provide.

ADMINISTRATIVE SITES

State law requires the Montana Fish and Game Commission to make payments in lieu of taxes. The commission-owned lands in each county are assessed and annual payment is made in the same amount as if the lands were privately owned. These payments in lieu of taxes are not required for lands totaling less than 100 acres per county, for lands used as bird farms or fish hatcheries, or for lands purchased by legislative apportionment from the state's general fund.
